Subject: Microsoft Settlement

I am very much in favor of the Microsoft settlement. I was opposed to the previous administration's attack on Microsoft which I feel is one of our premier American companys.How did they ever harm we consumers? The answer is that they did not. I for one want Microsoft on my computer!!!! I have had other formats & they do not compare.Thank God for the administration we now have,who are friendly to a great co. such as Microsoft!!!! Thanks for your attention, Jack Hovis.
